

PURISSIMA'S FALL GIVEAWAY!

The Purissima Hills Water District will give a free *rain click* to 75 customers within our District—which also includes free installation! ***This is a first come first served giveaway valued at \$150!***

The District has hired a reputable licensed irrigation specialist to ensure proper installation of the *rain clicks* (**required**). This device temporarily shuts off your irrigation controller when it rains. When exposed to the rain, a wick on the *rain click* will stop your irrigation from running. As the wick dries out, normal scheduled watering will resume.

Requirement

To receive a rain click you must have had a Water-Wise House Call (WWHC) within the last three years. You are also eligible for a rain click if you schedule a WWHC by calling (800) 548-1882. ***If you have any questions regarding this requirement, please contact Alexis Shields, the District's Conservation Specialist.***

What is a Water-Wise House Call?

A WWHC is a **free** home water use survey that helps identify opportunities where you can conserve. Conducting a WWHC involves calculating water use, teaching you to read your water meter, surveying the irrigation system, and showing you simple ways to save water both in and outside the home.

A WWHC will:

- Replace leaking toilet flapper valves if needed and requested.
- Measure your showerhead flow rates and install free showerheads if needed and requested.
- Measure faucet flow rates and provide faucet aerators for kitchens and bathrooms.
- Evaluate the efficiency of your irrigation system.
- Provide you with a personalized irrigation schedule.
- Identify irrigation leaks, broken or mismatched sprinkler heads, high water pressure and other common problems.
- Develop a prioritized list of how you can start using water as efficiently as possible.

To Request a Rain Click

Please email Alexis Shields at ashields@purissimawater.org or call the District at (650) 948-1217 to leave a message for Alexis.
